

École St. Avila

Month of March

Water Festival

Join us as we celebrate water our new 'raingarden' and learn how it works to keep our lakes, rivers and streams healthy!

Throughout the month of March students, teachers & parents are working on activities designed to increase awareness and understanding of how our new raingarden works. Presentations, movies and guest speakers will help us understanding the important role water plays in our day to day lives and existence on planet Earth!
